Nuremberg, 11/09/2021

This Year, die Bayerische Launches the Fourth Line of Its Modern Multi-Line System Together with Novum-RGI

5 **Following the successful launch of the home contents, residential building, and liability lines of business at the Bayerische insurance group, the casualty line, has gone into production as the fourth main line this year already**

10 This means that only the automotive line of business, which is already being worked on at full speed, is still missing for the completion of the new, modern portfolio management system for the administration of composite contracts (SHUK). The speed of the joint rollout under the project name "Elementar" facing difficult conditions of the Corona pandemic is particularly impressive. For almost two years, the joint team has been working exclusively remotely, sticking to the planned schedule and budget nonetheless

15 *"It cannot be overestimated what the team together with our partner Novum-RGI achieves in these challenging times. In a really short time, we have gained a modern inventory management system that not only saves us a third of the processing time, but also enables us to fulfill our customers' wishes almost in real time,"* Martin Gräfer, CEO of die Bayerische, is enthusiastic.

20 Since 2018, die Bayerische has been undergoing a transformation process. The goal is not only to renew the complete policy management system by the end of 2021, but also to develop it into a modern innovation platform that is open to third parties as well. The basis for this is V'ger, the high-performance standard software solution for insurers from Novum-RGI, which includes modern solutions for all insurance sectors and covers all insurance-related core systems. Thanks to the technologically and
25 professionally holistic approach, with V'ger, all sectors can be operated on a single standard platform.

Interested insurers can experience the modern policy management system Elementar live at the trade fair congress in Leipzig on November 23 and 24 in the context of an expert presentation by die Bayerische at the Novum-RGI trade fair stand.

Novum-RGI employs 150 people in the DACH region in Nuremberg, Cologne, Salzburg, Maribor, and Zurich. **novum-rgi.com**

The insurance group **die Bayerische** was founded in 1858 and consists of the companies Bayerische Beamten Lebensversicherung a.G. (parent company), BL die Bayerische Lebensversicherung AG and the composite company BA die Bayerische Allgemeine Versicherung AG. The total premium income of the group amounts to over 620 million euros. The Group is continuously increasing its equity capital and is well above the industry average. Investments of over 4.9 billion euros are managed. More than 12,000 personal advisors are available to the approximately 1 million customers of die Bayerische throughout Germany. In a recent credit rating, the rating agency Assekurata awarded the parent company a quality rating of A- ("very good"), attesting to the company's financial strength, which is far above the industry average. BA die Bayerische Allgemeine AG was also awarded an A- in a credit rating. BL die Bayerische Lebensversicherung AG was awarded an A+ as part of a comprehensive corporate rating. **diebayerische.com**
